

2019-20

The BPO recently announced the dates for this season's *Music for Youth* concerts and I wanted you to have them so that you can start planning your visit to Kleinhans Music Hall. Please note that the "Opposites Attract" concerts are designed specifically for PreK and Kindergarten students and will be held in the Mary Seaton Room, allowing for an up-close and personal concert experience. Please visit <https://education.bpo.org/> to make a reservation or for information on all of our education concerts for the 2019-20 season.

"Opposites Attract"

This new offering for PreK and Kindergarten learners introduces our littlest concertgoers to the orchestra and the magic of live music, all while aligning with the Common Core Learning Standards for ELA and Literacy. The performance takes place in the Mary Seaton Room at Kleinhans for a more intimate experience and includes music, movement, and singing with the full orchestra and a guide. Explore the basic building blocks of music: high and low, loud and soft, fast and slow, in this interactive program featuring music by Haydn, Beethoven, Tchaikovsky, and more.
